Dan Kumm Appointed CEO of Legacy Building Solutions, Ushering in a New Era of Innovation and Growth

September 16, 2024, South Haven, Minnesota - Legacy Building Solutions (Legacy) is proud to announce the appointment of Dan Kumm as its new Chief Executive Officer, effective September 16, 2024. Kumm, previously Vice President of BlueScope Buildings, brings a wealth of experience in innovation, value creation, and growth initiatives, marking the beginning of an exciting new chapter for Legacy.

At BlueScope Buildings, Kumm was responsible for driving innovation beyond traditional products and services, focusing on designing, detailing, and fabricating low-rise building envelopes. His leadership fostered the use of automated design technology to create integrated building systems that meet the diverse specifications of industries worldwide, including logistics, manufacturing, transportation, and retail.

With Kumm at the helm, Legacy Building Solutions aims to further its reputation for delivering cutting-edge, custom tension fabric structures to over a dozen industries globally. Legacy's expertise in design, engineering, manufacturing, and installation of these highly customizable buildings has positioned the company as a leader in providing innovative solutions to complex industry challenges.

Based in South Haven, Minnesota, Legacy Building Solutions is dedicated to offering tailored, high-quality fabric structures that meet the specific needs of its diverse clientele. Kumm's extensive experience and vision for growth align with Legacy's mission to continue pushing the boundaries of what's possible in the fabric building industry.

"I'm excited to join Legacy Building Solutions and collaborate with its talented team," said Kumm. "Together, we will expand our capabilities and continue delivering exceptional solutions that set new standards in the industry."
