

PROJECT PROFILE

Ellington Racquet Club

USTCA Indoor Tennis & Pickleball Facility

LOCATION

Ellington, CT

SIZE

136 ft x 330 ft (44,880 sq ft)

SITE PARAMETERS

120 mph wind load,
35 lb ground snow load,
exposure C, seismic B

FRAME + FABRIC

Gray primed rigid steel frames; tan and blue 28 oz. ExxoTec™ Elite on the exterior; white 19 oz. ExxoTec™ Pro for the interior liner

VENTILATION + DOORS

33 ARV-2000 roof vents; gutters and downspouts; 18-in eaves with mesh soffits for passive ventilation; two 10 ft x 12 ft coil overhead doors on each endwall and five walk doors

ADDITIONAL FEATURES

The building includes R-30 insulation, a spacious reception and viewing area, locker rooms, and eight indoor courts—four for tennis and four for pickleball. It features a non-traditional MEP system but is complemented by fans and a dedicated ventilation system.

INSTALLATION SERVICES

Installed by Legacy crews
